

CALLING ALL NEW JERSEY COUNTY PLANNERS INTERESTED IN CLIMATE CHANGE

RUTGERS

New Jersey Climate Change Resource Center

The [New Jersey Climate Change Resource Center](#) at Rutgers University is offering a free, virtual training on use of Rutgers' climate change data visualization and mapping tools, [NJADAPT](#). These data tools are designed to support efforts by communities to understand their impacts from climate change using the latest science and authoritative data.

Approved CEUs:

This virtual event has been approved for:

- 2 AICP CM Credits
- 2 ASFPM CEC

Training participants will:

- *Become proficient in use of the NJADAPT tools to inform community and climate change planning; and*
- *Gain a deeper understanding of climate change impacts in New Jersey.*

This training is ideal for professionals working at the county level in New Jersey on climate change, resilience and hazard mitigation planning.

Training Date: Thursday, September 29 – 12:00-2:00 pm via Zoom

To register, go to this registration link and sign up by September 23, 2022: https://rutgers.zoom.us/meeting/register/tJEkdO2oqDgqHNRxM404rPuOFjH70eoluh_I. You will receive an email confirmation and calendar invitation with Zoom logistics from Rutgers.
